Acting Commissioner Jane Henney, M.D.
FDA
5600 Fishers Lane
Rockville, MD 20857

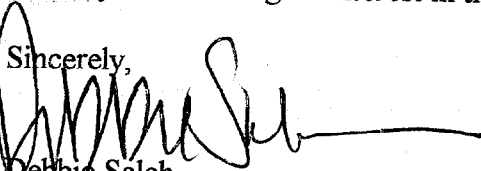

Dear Dr. Henney:

In response to an article appearing in the January issue of Mothers & Others, I urge to to approve the suspension of Monsanto's license to sell rBGH until tests have been completed to prove its safety.

As a mother of 2 children and a milk consumer myself, the public must be able to make informed choices regarding the food they consume.

Thank you for taking an interest in this matter. Please suspend their license.

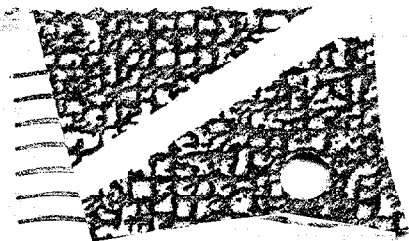

Sincerely,

Debbie Saleh
